

ENERGY SAVING & CLIMATE AWARENESS PROGRAMME

WHAT WE WILL TALK ABOUT

- Understand why it matters
- Learn energy-saving habits
- Support our sustainability goals

WHY IT MATTERS

Climate change is driven by greenhouse gas emissions, much of it from energy use

Rising costs from energy consumption impact both the business and the planet

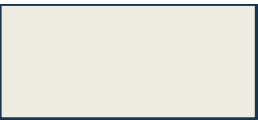

Regulations, stakeholder pressure, and Net Zero targets are increasing

ENERGY CONSERVATION AT WORK

1. Switch off lights, monitors, and equipment when not in use
2. Use **natural light** and heating/cooling mindfully
3. **Report leaks or inefficiencies** (drafts, broken sensors, etc.)
4. Use **energy-efficient settings** on office appliances

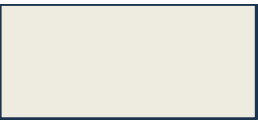

DIGITAL ENERGY USE

**POWER DOWN
DEVICES FULLY AT
THE END OF THE
DAY**

**CLEAR DIGITAL
CLUTTER FROM
CLOUD STORAGE**

**LIMIT
UNNECESSARY
EMAILS AND
LARGE
ATTACHMENTS**

**TURN OFF VIDEO
FOR LOW-
BANDWIDTH CALLS
WHEN POSSIBLE**

CLIMATE ACTION BEYOND THE OFFICE

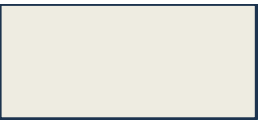

- Choose low-carbon travel (walk, cycle, carpool, public transport)
- Reduce, reuse, recycle
- Participate in company green initiatives (tree planting, energy audits)
- Support climate-conscious suppliers

RECAP & CALL TO ACTION

- Every employee can help reduce emissions
- Be mindful of how you use energy
- Lead by example, at work and beyond
