SASB

***** UK have aligned our sustainability disclosures with SASB industry standards so that we clearly and consistently measure the ESG issues that matter most to our business. By using SASB, we ensure that our reporting speaks to the relevant environmental, social and governance dimensions. From carbon footprint and efficient operations (as highlighted in our “Sustainability & Environment” pillar) to a diverse and inclusive workforce (as referenced in our “Social Responsibility” pillar) and robust governance and ethics (our “Corporate Governance” pillar). Because SASB helps identify material topics for our sector, we can better focus our efforts and show our stakeholders, employees, clients, and investors that we are managing risks, creating value and operating responsibly. Collating this information each year demonstrates our transparency, builds trust and accountability, and supports the long-term success of ***** by helping us continuously monitor progress, set measurable goals and benchmark our performance.

DOUBLE MATERIALITY

We conducted a double materiality assessment to identify the environmental, social and governance (ESG) topics that are most significant to both our business performance and our broader societal impact. This process allows us to map issues by their impact materiality (their effect on people and the environment) and financial materiality (their influence on our company's value). Our assessment highlights Data Security, Employee Health and Safety, Business Ethics and Labour Practices as areas of high importance, reflecting our responsibility to protect sensitive information, safeguard our people, and uphold strong governance standards.

		Impact materiality	Financial materiality
Environment	Energy Management	2	2
	GHG Emissions	2	2
	Waste & Hazardous Materials Management	1	1
Social Capital	Data Security	4	4
Human Capital	Labour Practices	3	3
	Employee Health & Safety	3	3
	Employee Engagement, Diversity & Inclusion	2	2
Business Model and Innovation	Supply Chain Management	3	3
Leadership and Governance	Business Ethics	3	3
